Middle East crisis !
Would Hamas Rockets Attack be a Solution ?

Abu Hayyan Saeed

First of all, I want to discuss my thoughts about the Middle East crisis a little bit in some words,now i want to discuss some facts regarding the 7th October 2023 Hamas Rockets attack on Israel.

The conflicts between Palestanians and Jews are thousands of years old as I consider history.

Hamas rocket attacks,i consider these rockets attack is a brand new and fresh CIA strategy after Al Qaeda, Taliban and ISIS.

According to Israel, 22 of its citizens were killed in 5000 rocket attacks by Hamas on Israel on 7th October.

In response, Israel carried out a bloody crackdown on Palestinians, killing thousands of Innocent Palestinians and seriously injuring thousands.

Both parties, Hamas from Palestine and Hezbollah from Lebanon, were formed in the 80s with a gap of 5 years.

Both parties only make rocket attacks or small skirmishes. Israel's air defense system iron dome always fails during their rocket attacks and in response to these attacks, Israel gets the justification to advance and massacre innocent Palestinians and shed blood and expand Jewish settlements further and further..

The reason for this attack by Hamas was that the Arab countries were close to Israel. Because Arab countries' relations with Israel also means the end of the heavy financial and moral support of these organizations from Arab countries especially Saudi Arabia and UAE.

Perhaps because of the same thing, on October 7th 2023, Hamas attacked and threw out the last of her trump card that maybe the Arab countries will

end their relations with Israel and stand in favor of Hamas and other organizations.

But so far Hamas has not succeeded in its planning.

This is what the PLO used to do before that and eventually Yasser Arafat ended up marrying a young Jewish girl..and she grabbed millions of dollars from Yasser Arafat..

These limited power militant groups are not a threat to Israel, but necessary and supportive of its security and expansionist ambitions. That is why the CIA operates and funds these criminals.

PLO, Al Qaeda, Hamas, Taliban, East Turkestan Liberation Movement China, Islamic Jihad India, Students Islamic Movement of India (SIMI), ISIS etc. are puppets of the CIA, they are completely run by the CIA. . The Palestine issue is a proxy of the CIA and is managed by the CIA.

Many hearts will be saddened by this, but the bitterness of the facts says this.

After 1897 AD, the greedy and evil Palestinians started selling their agricultural lands, properties, houses, etc. to the Jews at exorbitant prices.

Why should I claim ownership when I sell my properties? And who will believe my claims?

The land of Palestine has been a land of cruelty, bloodshed and greed for thousands of years.

At that time the Ottoman Turkish sultans were enjoying full time Sex with their hundreds of Muslim, Christian, Jewish wives and female slaves.

The center of Palestine on the western side of Asia and the southern part of the Middle East is the location of the ancient historical city of Quds, also known as Bait al-Maqdis or Quds Sharif. Its tradition has been described in history for more than 45 centuries. This holy city is one of those cities which are sacred to all human beings. Most of the prophets were sent to this city

and the farmers of the land spread around this city even today claim to be the descendants of one or the other prophet.

According to the Jewish faith, the appearance of their last king will also be from here, while according to the Christian faith, Jesus was crucified here, that is why Christians also attach great importance to this place.

In 639 A.H., under an agreement with the Christians in the era of Muslim Caliph Umer Al Farooq known as the era of Farooqi, the Muslims took possession of Bait-ul-Maqdis. During the reign of Caliph Abd al-Malik, the construction of the Al-Aqsa Mosque took place here and the Dome of the Rock was built on the Meraj rock.

On the occasion of the First Crusade in 1099, the European crusaders captured Jerusalem and martyred 70 thousand Muslims. In 1187, Sultan Saladin Ayyubi freed Jerusalem from the Christians.

Modern History and Jewish Occupation During the First World War in December 1917, the British occupied Jerusalem and Palestine and gave general permission to the Jews to settle. Under the conspiracy of Jews and Christians, in November 1947, the General Assembly of the United Nations divided Palestine between Arabs and Jews, and when the Jews announced the establishment of Israel on May 14, 1948, the first Arab-Israeli war broke out. got rid of As a result of this war, Israel occupied 78% of the territory of Palestine, but East Jerusalem (Beit al-Maqdis) and West Jordan came under Jordanian control. In the Third Arab-Israeli War (June 1967), the Israelis gained control over the rest of Palestine and Jerusalem. Thus, the first Qibla of the Muslims is still in the possession of the Jews. According to the Jews, from the destruction of 70 A.D., a part of a wall of the Temple of Suleimani remains, where Jewish pilgrims used to come and cry for two thousand years, that's why it is called "Weeping Wall". Now the Jews are making plans to build a temple on the ground of the Al-Aqsa Mosque. Israel has also made Jerusalem its capital.

In Muslim History Al-Aqsa Mosque is the first Qibla of Muslims and the third holiest place after Kaaba and Masjid Nabawi. Local Muslims call it Al-Masjid Al-Aqsa or Al-Haram al-Qudsi al-Sharif. It is located in East Jerusalem, which is occupied by Israel. It is the largest mosque in

Jerusalem with a capacity of 5,000 worshipers, while thousands of people can pray in the courtyard of the mosque. Since the beginning of Al-Aqsa Intifada in 2000, the entry of non-Muslims has been prohibited here

The Tragedy of Bait Al-Maqdis On August 21, 1969, an Australian Jew, Dennis Michael Rohan, set fire to the First Qibla, which caused the Al-Aqsa Mosque to be engulfed in fire for three hours and a large part of the Ain Qibla on the southeast side fell. The pulpit in the mihrab, which was installed by Saladin Ayyubi after the conquest of Bait al-Maqdis, was also set on fire. . Saladin fought about 16 wars for the liberation of Qibla I and during each war he carried this pulpit with him to install it in the mosque after victory.

After this tragic incident, the eye of the Muslim Ummah, which was immersed in sleeplessness, woke up for a moment and almost a week after the tragedy, the Islamic countries established the Islamic World Organization (OIC). However, this organization of 56 Islamic countries became inactive after the second meeting held in Lahore, Pakistan in 1973.

The Jews consider this mosque to be a place of worship built in place of the Temple of Solomon and they want to tear it down and build the Temple of Solomon again, although they could never prove by argument that the Temple of Solomon was built here.

In Muslim traditions the sanctification of Bait al Maqdis (Jerusalem) is based on a false and fabricated traditions known as Israeliyat..

The defense budget of Arab Countries is more than $ 184000 Millions in 2023 to whom ? Israel killed up brutally Arab Palestanians so many times. only Saudi Arabia spent 78000 Billions dollars for defence Budjet ,thousands of Latest Fighter Jets are fucking ecah-others in Saudi Air Bases.

UAE's has Defense budget of 23000 Million dollars

The foolish Turkish has a defense budget of 16000 Million dollars.

Qatar's defense budget is 16000 million dollars.

and the International Beggars Pakistan has a defense budget of 11000 million dollars.

The important thing is that No one knew about the actual military strategy of Arabs against Israel or Iran.

Conclusion :

The Hundreds Of Trillion dollars Military Hardware Industry of the United States and Europe gave some petrol on the Middle East crisis specially and all conflicts in the world from time to time such as the phrase " to add fuel to the fire" by the CIA via her puppets like Al-Qaeeda,Taliban,Hamas,HezbOllah,LeT,Jaish,ISIS,ETMM China,SIMI,Islamic Jehad India etc as well as they put fuel in "Kashmir Conflict" between Pakistan and India time to time to sold their Billions of dollars useless weapons to Both Stupids,India and Pakistan.
